

Microsoft Threat Prevention Assessment

Are you as secure as you think?

Phishing attacks, weak password protocols, exposed personal data – is your organization's cloud environment as secure as you think it is? In today's digital landscape, managing a growing volume of data and alerts, tight budgets, and vulnerable legacy systems can be challenging.

Microsoft Threat Protection Assessment

AHEAD offers a comprehensive Threat Protection Assessment into your Microsoft environments (M365, Azure, On-prem). This exclusive program is designed to help you achieve broader security objectives, identify real threats, and develop a strategic plan customized for your organization based on the recommendations of AHEAD and Microsoft's security experts. **And the best part, it is completely complimentary.**

Why AHEAD?

Join our team for an in-depth threat assessment covering:

IDENTIFY CURRENT & ONGOING SECURITY THREATS

Understand the security threats targeting your organization.

RECEIVE ACTIONABLE NEXT STEPS

Walk away with a clear plan based on your specific needs and objectives.

DOCUMENT YOUR SECURITY STRATEGY

Benefit key stakeholders with a well-documented security strategy

ACCELERATE YOUR SECURITY JOURNEY

Learn how to use the latest Microsoft Security tools to enhance your security posture

The Benefits

Our free assessment is designed for IT and Security decision-makers who are tasked with securing all the potential vulnerabilities they face. Our team of experts will work with you to build a solid roadmap for total security, including:

1. REVIEW YOUR SECURITY GOALS AND OBJECTIVES:

We align our strategies with your vision.

3. MAP IDENTIFIED THREATS AND VULNERABILITIES TO SPECIFIC SOLUTIONS:

We equip you with the tools to combat potential risks.

2. IDENTIFY REAL THREATS AND DISCOVER VULNERABILITIES

Our experts provide a comprehensive understanding of your security landscape.

4. DEVELOP JOINT PLANS AND NEXT STEPS:

We ensure a collaborative approach to your cybersecurity needs.

Deep Threat Analysis

Gain insights into cybersecurity threats targeting your organization.

Actionable Recommendations

Receive immediate, actionable recommendations to mitigate identified threats.

Visibility into Vulnerabilities

Understand, prioritize, and address vulnerabilities and misconfigurations in your M365, Azure, and on-prem environments.

Long-Term Strategy

Receive long-term recommendations from Microsoft experts.

Schedule Today

Take advantage of this exclusive opportunity and schedule a 30-minute initial overview with our AHEAD engineering resources. Let's take the first step together toward a more secure future.

Use this workshop as an opportunity to find out more about how Microsoft Security products fit into your security stack!
